Workshops

Workshop 1: How to address Criterion 2 in the Referencing Report?

Criterion 2 for referencing national qualifications levels to the EQF states that there must be a clear and demonstrable link between the qualifications levels in the NQF and the level descriptors of the EQF.

This workshop will explore and discuss transparent ways of responding to this criterion and will address the following questions:

How to best indicate this “clear and demonstrable link” to the international audience?

How to address the concept of “best fit”?

How to present the relationship between the NQF and the qualifications framework for Higher Education?

How to deal with the fact that qualifications that have been considered as "equal" so far (for example, the upper secondary school leaving certificate) will be related to different EQF levels in different countries?

Presentation:

Karin van der Sanden-van der Goot (NL): Project leader of the development of the Dutch NQF for the Ministry of Education, Culture and Science

Chair:

Carita Blomqvist, FNBE (FI)

Workshop 2: How to address Criterion 4 in the Referencing Report?

Criterion 4 is related to transparent procedures for inclusion of qualifications in the national qualifications framework or for describing the place of qualifications in the national qualification system. A crucial question in this context is related to providing arguments and evidence when allocating qualifications to the NQF. This workshop will address the following questions:

How and in how much detail should evidence be provided in the EQF referencing report?

How to apply the concept of “best fit” when classifying qualifications in an NQF?

How to balance technical analysis (comparing descriptors) and social approach (e.g. consulting stakeholders)?

How to balance learning outcomes and input?

How to ensure quality in this process?

Presentation:

Sabine Tritscher-Archan, ibw (AT): Criteria and procedures for classifying qualifications in the Austrian NQF and experiences from the EQF project ZOOM (www.zoom-eqf.eu)

Chair:

Karin Luomi-Messerer, 3s (AT)

Workshop 3: How to Address Criterion 7 in the Referencing Report?

Criterion 7 is related to the involvement of international experts. This workshop will address the following questions:

What professional profile do they have?

What systems do they represent?

What do they need to know?

What is their role in the process? At which stage of the process are they involved?

How to combine different assessments from different experts?

Are there also other ways of international cooperation in the referencing process?

Presentation:

Michael Schopf, DE: Member of the national working group for the development of the German Qualifications Framework. He is acting on behalf of the Ministry of Education and Research and The Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany

Chair:

Georg Hanf, BIBB (DE)

Panel discussion

Panel discussion: “EQF referencing – What happens afterwards?”

This panel discussion will take into account issues from the workshops and will address the following questions:

- When is an update of the EQF referencing report needed?
- How to consult and interact with stakeholders in the short and long term?
- What to consider post referencing in terms of building trust in the decisions made?

Participants:

- Seija Rasku, Ministry of Education (FI)
- Stefan Skimutis, Swedish National Agency for Higher Vocational Education; NCP (SE)
- Eduard Staudecker, Ministry of Education, Arts and Culture; EQF Advisory Group (AT)
- Anja Trier Wang, Educational Policy Adviser, Confederation of Danish Industry (DI), member of EQF Advisory Group, representing BUSINESSEUROPE (DK)

Moderator:

Slava Pevec Grm, Cedefop
